CHARITY GOLF TOURNAMENT

THE PROCEEDS WILL BE SHARED WITH THE RUGBY FOUNDATION OF NEW ZEALAND AND THE CENTURIONS.

The Rugby Foundation is an independent Charitable Trust that looks after areas of concern and need within our national sport and whose main objectives are to foster rugby at grass roots level, injury prevention, welfare and the on-going care of critically injured players. We do this by supporting Area Schools Rugby Programmes, coaching clinics and camps, injury prevention courses and a disability insurance scheme as well as assistance for the critically injured.

Kindred clubs like the "Centurions" are organisations that have been established around New Zealand by ex representative players and administrators to assist in fostering the game within the precincts of amateur rugby. They, like the Foundation, are basically voluntary organisations.
